JOBCOM.

THE VALUE OF GOOD COMMUNICATION.

Successful business people understand that effective communication means less wasted time and money. And greater profitability.

Our JBX two-way radios help increase the efficiency of your business, by giving you instant communication throughout your company. Workers stay constantly in touch at the push of a button, which eliminates idle time and wasted man-hours. That allows your company to become more responsive. Jobs go more smoothly and are finished faster. And that helps increase the satisfaction of your customers.

Now the power of professional two-way communication is available in a compact, cost-effective radio. The Jobcom JBX radio by Ritron.

THE SHAPE OF THINGS TO COME.

The sleek lines and generously rounded edges of the JBX radio provide contemporary looks and styling. But more than that, the design helps make

Effective communication helps you reduce wasted time on the job.

Increased productivity means greater profitability. That's never been more important than today.

the radio very comfortable to hold and operate.

A POSITION OF STRENGTH.

The JBX radio is built tough for excellent on-the-job performance, even under the most punishing conditions.

The extremely strong "uni-body" housing is made of Lexan, a tough, impact-resistant polycarbonate material. This combination of design and material is what makes the JBX radio so durable, yet lightweight. In fact, the JBX radio weighs less than 14 ounces.

IT'S WHAT'S INSIDE THAT COUNTS.

Our JBX radios feature a host of popular options and all the talk power you need for effective on-the-job communications.

Single-channel operation is standard. Three VHF business band frequencies are available, with an operating range of up to 2 miles (line-of-sight). And they're covered by a one year labor, three year parts factory warranty. **JOB.COM**
JBX BY RITRON

JBX radios are engineered to withstand temperature extremes.

The JBX radio is designed to meet Military Standards 810 C&D for Shock and Vibration.

JBX radios are important tools for any business, large or small, that wants to improve the productivity of its people.

STANDARD FEATURES AND ACCESSORIES.

PTT (PUSH-TO-TALK) SWITCH.

This sealed switch design protects inside components from dust, dirt and moisture.

TOUGH SCREW MOUNT MOLDED ANTENNA.

Provides superior durability under adverse conditions.

TOP-MOUNTED CONTROLS.

Easy-to-locate volume and squelch controls allow fast, simple operation of the radio.

RECHARGEABLE BATTERY.

JBX radios are equipped with an easy-to-change, dual rate, 650mAh battery.

STAINLESS STEEL BELT CLIP.

Sturdy 4" clip keeps the radio on your belt for easy access.

BATTERY CHARGER.

Each JBX radio comes with a standard rate 110 VAC wall charger.

OPTIONS.

REMOTE SPEAKER MICROPHONE.

Remote push-to-talk speaker/microphone with swivel lapel clip. This allows easy remote transmissions and reception of communications without removing the radio from your hip.

QUIET CALL PRIVACY MODULE.

Programmable, plug-in module provides distraction-free communications by screening out other users on your channel.

EARPHONE.

Enables private or high noise area listening.

CARRYING HOLSTER.

Durable holster with detachable swivel belt loop protects the radio and provides carrying convenience. Available in leather and Cordura nylon.

SINGLE UNIT DESKTOP CHARGER.

Standard rate charger or dual rate, fast charger. Charges one battery at a time (with or without radio).

TWO UNIT DESKTOP CHARGER.

A dual rate, fast charger. Charges two batteries at a time (with or without radios).
